Budde Vinay

LinkedIn: linkedin.com/in/vinay-budde
Email: vinaybudde263@gmail.com
GitHub: github.com/Vinay-Budde
Mobile: +91-6303665851

Skills

Programming Languages: Java, TypeScript, JavaScript
Core CS Concepts: Data-Structures & Algorithms (DSA), OOPs
Frontend Development: React.js, Express.js, Tailwind CSS, responsive UI Design
Backend & Database: Node.js, MongoDB, REST APIs, Express.js
Soft Skills: Problem-Solving, Team Player, Time Management, Adaptability, Analytical Thinking

Projects

Clean India – Civic Issue Reporting System | GitHub | Live — Mar'26

- Built a cloud-based civic reporting system enabling geo-tagged issue submission with image evidence and real-time spatial visualization across urban regions.
- Integrated structured REST APIs and MongoDB schema modelling to manage complaint lifecycle workflows from registration through verification and closure.
- Enabled interactive geospatial tracking using Leaflet and OpenStreetMap with dynamic markers, status-based filtering, and location-driven insights

  Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Leaflet (OpenStreetMap), REST APIs

Logic Grid | React.js, TypeScript | GitHub | Live — Jan' 26

- Engineered a Sudoku-inspired logic puzzle application using React.js and TypeScript, implementing dynamic grid generation, deterministic rule validation, and structured game-state management.
- Enforced strong typing with TypeScript to improve data integrity, reduce runtime errors, and maintain scalable game logic across components.
- Built a responsive, input-agnostic UI (keyboard and mouse) and deployed the application to a cloud platform, ensuring stable public access and consistent performance.

Student Record Manager | React.js, Node.js, Java, HashMap, MongoDB | GitHub | Live — Jun' 25

- Architected a full-stack web application for managing student records with complete CRUD functionality and client–server integration.
- Designed and managed MongoDB collections to store student data efficiently, applying schema validation and optimized query patterns for reliable data access.
- Deployed the application with environment-based configuration, enabling seamless frontend–backend communication in production.

Training

Java Bootcamp(LPU) | Certificate — Jun' 25 – Jul' 25

- Strengthened proficiency in Core Java by applying object-oriented principles to solve structured programming problems and build modular applications.
- Implemented fundamental data structures and algorithms, including two-pointer techniques, sliding window patterns, recursion, and backtracking to improve problem-solving efficiency.
- Analyzed time and space complexity to write optimized, maintainable code under practical constraints.

Certificates

ChatGPT-4 Prompt Engineering | Infosys Springboard | Certificate — Aug' 25

Cloud Computing | NPTEL | Certificate — Apr' 25

Master Generative AI & Generative AI Tools | Infosys Springboard | Certificate — Aug' 25

Achievements

Solved 100+ DSA problems in LeetCode, strengthening problem-solving ability — Sep' 25

Education

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology — Aug' 23 – Present
Computer Science and Engineering

Narayana Jr College — Hyderabad, Telangana
Intermediate — Jun' 22 – May' 23

CPRM High School — Nizamabad, Telangana
Matriculation — Mar' 20 – May' 21
