Projects

Clean India - Civic Issue Reporting System | MERN Stack | Live Demo Jan'26 - Present

- Built a civic issue reporting platform allowing users to submit geo-tagged complaints with image evidence
- Designed RESTful APIs to handle the complete issue lifecycle, including registration, verification, and resolution
- Integrated Leaflet and OpenStreetMap for real-time location tracking with dynamic markers and filtering
- Optimized MongoDB schema design to ensure efficient data handling and faster query execution
- GitHub Repository Link: <https://github.com/Vinay-Budde/cleanindia>

Virtual Cosmos | React, Socket.IO, PixiJS | Live Demo Mar'26

- Engineered a real-time 2D virtual space enabling users to navigate and interact dynamically within a shared environment
- Implemented proximity-based interaction logic to automatically connect/disconnect users and enable real-time chat
- Utilized Socket.IO to synchronize user positions and facilitate low-latency messaging across multiple active users
- Optimized rendering and state updates to support smooth real-time interactions across multiple concurrent users
- GitHub Repository Link: <https://github.com/Vinay-Budde/Cosmos>

Logic Grid – Puzzle Application | React, TypeScript | Live Demo Feb'26

- Created a Sudoku-inspired logic puzzle application featuring dynamic grid generation and rule-based validation
- Leveraged TypeScript to enforce strong typing, improving data reliability and minimizing runtime errors
- Developed a responsive interface supporting both keyboard and mouse interactions for better user experience
- Ensured smooth gameplay by implementing efficient state management across components
- GitHub Repository Link: <https://github.com/Vinay-Budde/Sudoku>

Training

Java Bootcamp | Lovely Professional University | Certificate Jun'25 - Jul'25

- Gained hands-on experience in Core Java with a focus on object-oriented programming principles
- Applied problem-solving techniques using data structures such as arrays, recursion, and backtracking
- Practiced algorithmic patterns including two-pointer and sliding window approaches for optimized solutions
- Evaluated time and space complexity to develop efficient and scalable programs

Certificates

Data Platform Mar'26
Oracle | Certificate

ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM Aug'25
Infosys Springboard | Certificate

Master Generative AI & Generative AI tools (ChatGPT & more) Aug'25
Infosys Springboard | Certificate

Cloud Computing Apr'25
NPTEL | Certificate

Technical Skills

Languages: Java, JavaScript, TypeScript, C++, PHP, Python

Frontend: React.js, HTML5, CSS3, Responsive Web Design, Tailwind CSS

Backend and Database: Node JS, Express JS, Mongo DB, REST APIs

Core Concepts: Data Structures and Algorithms(DSA), OOPs, DBMS

Education

Lovely Professional University 2023 - 2027
Computer Science and Engineering - CGPA: 7.22 Jalandhar, Punjab

Narayana Jr College 2022 - 2023
Intermediate - Percentage: 97.5% Hyderabad, Telangana

CPRM High School 2020 - 2021
Matriculation - Percentage: 95.5% Nizamabad, Telangana
